

BUILT INTO NAPA TRACS · FREE 30-DAY TRIAL

How much maintenance did you leave on the table last month?

SideKick360 is the analytics layer already built into your NAPA TRACS install. **Click the Maintenance Hunter button inside any invoice**, answer a few prompts, and you're live — no IT, no setup call, no waiting. Maintenance Hunter then **back-runs your last 30 days of repair orders**, so about 20 minutes after install you're looking at the maintenance your shop missed last month — in dollars, on your own data. Advisors get AI-built service profiles; owners get the daily Report Hub — every store's numbers plus AI insights, one link — by end of day.

**10,000+**

NAPA TRACS shops already have SideKick360 built in. The Maintenance Hunter button is in **every invoice in your system right now** — an official extension featured on napatracs.com.

PERFORMANCE MANAGEMENT

The daily Report Hub: every manager, one link.

Point-and-click advisor auditing, missed-opportunity reporting, and enterprise roll-up across every store.

ADVISOR TOOLS

An AI service profile in under four seconds.

Maintenance Hunter, Reach Out, Missed Opportunity, and Service Scope — the tools NAPA TRACS doesn't have natively.

BUSINESS INTELLIGENCE

Tires, services, parts & labor, standardized.

Spiff tracking, promotion ROI, labor productivity. Roll up enterprise metrics across every one of your NAPA TRACS stores.

NO IT. NO SETUP CALL. NO WAITING.

Activate your free 30-day trial from inside NAPA TRACS — right now.

Every NAPA TRACS invoice already has a **Maintenance Hunter** button at the top of the screen. Click it, follow a few prompts, and you're in. Maintenance Hunter back-runs your last 30 days of repair orders — most shops see the maintenance they left on the table last month, in dollars, about 20 minutes after install.

Invoice #142 — JENSEN

Maintenance HunterQuick Quote

SummaryWorksheetDetailPrint OptionsTotals

CUSTOMER	VEHICLE	VIN	SERVICE WRITER
JENSEN, RICK	2014 Dodge Caravan 3.6L	2C4RDGCG0ER427432	SERVICE MANAGER

STEP 1

Open any customer invoice.

The **Maintenance Hunter** button lives at the top of every invoice, next to Quick Quote.

STEP 2

Click Maintenance Hunter, then Get Started.

Answer a few prompts about your shop. The SideKick Connector installs itself.

STEP 3

See missed revenue on the next ticket.

Your 30-day missed-maintenance number is ready in ~20 minutes. Your first daily Report Hub lands within 24 hours.

FLAGSHIP FEATURE

Maintenance Hunter.

Builds a complete vehicle service profile in **under four seconds** from OE maintenance schedules and prior invoice history. CARFAX history is optional: the owner turns it on by clicking Enable CARFAX and accepting the terms.

PLUS, ON DAY ONE

- **Reach Out** — sub-estimates, recommendations & misses in one view
- **Daily Report Hub** — one link to every manager, by text or email

WHERE THE MONEY HIDES

Missed Opportunity.

Point-and-click drill-down into services that **should have been sold** on prior visits. Every advisor sees exactly where the revenue walked out the door — and exactly which customer to call today to win it back.

- **Service Scope** — search vehicle history in seconds
- **Enterprise roll-up** across every NAPA TRACS store
