

● NOW LIVE

PROTRACTOR INTEGRATION · FREE 30-DAY TRIAL

# Your Protractor data already knows what your shop missed last month.

SideKick360 now connects directly to Protractor through its **official Integration Services API**. As a Vehlo integration partner, **we request your API keys from Vehlo for you**. You don't install anything or open an IT ticket, and your team's Protractor workflow stays the same. Once your stores are live, advisors get AI-built service profiles, and owners get the daily Report Hub with every store's numbers and AI insights in one link.

## Every rooftop.

Multi-store Protractor groups are **already connected**. Every location rolls up into one enterprise dashboard, so you can rank stores, benchmark advisors, and drill from group level down to a single repair order.

### PERFORMANCE MANAGEMENT

#### The daily Report Hub: every manager, one link.

Point-and-click advisor auditing, missed-opportunity reporting, and enterprise roll-up across every store, sent by text or email.

### ADVISOR TOOLS

#### An AI service profile in under four seconds.

Maintenance Hunter, Reach Out, Missed Opportunity, and Service Scope give your advisors the right recommendation before they walk up.

### BUSINESS INTELLIGENCE

#### Tires, services, parts & labor, standardized.

Spiff tracking, promotion ROI, and labor productivity, normalized across every Protractor store, even alongside other SMS platforms.

**Vehlo**  
Official Vehlo  
integration partner  
for Protractor

NO DOWNLOAD. NO IT TICKET. NO WORKFLOW CHANGE.

# We connect your Protractor stores through Vehlo. You just say go.

Because SideKick360 is an official Vehlo integration partner, **we request your Protractor API keys directly from Vehlo**, Protractor's parent company. Protractor provisions secure, read-only access, and we connect your stores. **Your 30-day free trial starts the day your stores go live**, not the day you sign up.

## STEP 1

### Request your connection.

Scan the QR code or visit our Protractor page. Tell us your stores. **Nothing to download.**

## STEP 2

### We get your keys from Vehlo.

We file the request for your rooftops, and Protractor provisions API access. **No IT ticket on your side.**

## STEP 3

### Go live. Your trial starts.

We pull your repair orders and build your dashboards. Your first daily Report Hub follows. **30 days free from go-live.**

## FLAGSHIP FEATURE

### Maintenance Hunter.

Builds a complete vehicle service profile in **under four seconds** from CARFAX, OE maintenance schedules, and your Protractor invoice history. Your advisors walk up to every customer with the right recommendation, already documented.

## PLUS, FROM GO-LIVE

- **Reach Out:** sub-estimates, recommendations & misses in one view
- **Daily Report Hub:** one link to every manager, by text or email

## WHERE THE MONEY HIDES

### Missed Opportunity.

Point-and-click drill-down into services that **should have been sold** on prior visits. Every advisor sees where the revenue walked out the door, and which customer to call today to win it back.

- **Service Scope:** search vehicle history in seconds
- **Enterprise roll-up** across every Protractor rooftop

## Run Protractor? We'll handle the connection.

Request your connection · We get your keys from Vehlo · Your trial starts at go-live
